

Toronto District School Board  
Additional Qualification Course Offering  
Math - Grade 7 / 8

The TDSB one course Grades 7/8 Mathematics AQ is designed to critically explore, examine and implement what it means to *know mathematics for teaching mathematics in the intermediate division*.

Candidates will critically inquire into professional practices, pedagogies, and ethical cultures through dialogue, collaborative reflection and job embedded teaching and learning.

The course will appeal to teachers of intermediate and senior students who want to expand their understanding of how grade 7 and 8 students learn mathematics and how to design, plan and implement more effective research-based programs.

(TDSB one-Course Additional Qualification, 2015)

This course does not qualify candidates for the Intermediate Division.
