Ward 19 Trustee

Scott Harrison
(416) 397-3104

Superintendent

Kerry-Lynn Stadnyk
(416) 396-9188

Director of Education

Chris Spence

OUR SCHOOL

Bendale Business and Technical Institute (B.T.I.) is committed to providing a high-quality, unique, and alternative curriculum for students who wish to pursue business and technical careers. The programs at Bendale are designed to take advantage of the wide range of learning styles, strengths, and needs of our students. After graduation many Bendale students continue their training through apprenticeship programs. Other students elect to attend community colleges or go directly to the workplace.

As a complement to traditional academic skills development, there is a strong focus on hands-on learning, personal management skills, and teamwork. The Conference Board of Canada has identified these skills as those most desired by employers.

In grades 9 and 10, students are encouraged to choose a variety of technical and business courses from over 27 different course offerings. Students in grades 11 and 12 choose one specific technology or business area in which to specialize, and a complete package is designed to support each focus area. Each package emphasizes particular skills and knowledge related to the area of specialty, and the emphasis on employability and career development is clear throughout the school. These packages can lead directly to employment, to community college programs and to apprenticeship programs.

Bendale is committed to the development and implementation of innovative programs that offer students unique opportunities to explore or pursue a variety of career options involving Technical Trades, Business or the Arts. Bendale's Home Construction Program enables students, under the supervision of an experienced construction teacher and in partnership with Habitat for Humanities, to build homes for families in Toronto. Students gain experience in all aspects of the construction trades. Bendale's Specialized Programs include Hairstylist, Cook, Landscape Technician and Metal Machining. These programs liase with Ontario Youth Apprentichip Program (OYAP), industry partners and colleges to enable students to reach ahead and satisfy a substantial portion of the apprenticeship requirements, prepare for college and acquire valuable work experience.

Special Features

- ✦ small classes and specialized program delivery to provide remediation and enrichment as required
- ✦ strong emphasis on career and co-operative education ; innovative curriculum delivery including a house building project and in-school Ontario Youth Apprenticeship Programs.
- ✦ tremendously diverse range of technical courses and fully networked computer labs
- ✦ extensive support available through Special Education programs
- ✦ thriving extra-curricular programs that include a variety of teams and clubs

OUR STUDENTS (As of spring 2008)

	<u>No.</u>	<u>Percent</u>
✦ Total number of students:	608	
✦ Gender:		
Female	220	36%
Male	388	64%
✦ Primary language other than English:	116	20%*
✦ Students born outside of Canada:		
Students living in Canada for 2 years or less	8	1%
Students living in Canada for 3 - 5 years	10	2%

* Calculation does not include students for whom language information is missing.
