## Ontario Secondary School Literacy Test Results Schools in the Toronto District School Board

### Previously Eligible Students – March 2006

The attached list presents the results for each school in the Toronto District School Board for the Ontario Secondary School Literacy Test administered in March 2006. Students who took the test in March 2006 were in Grade 10 (first-time eligible students) or in Grade 11/12 (previously eligible students). First-time eligible students entered Grade 9 during the 2004-05 school year and were required to write the OSSLT for the first time in March 2006. Previously eligible students entered Grade 9 during the 2000-2001 (cohort one), 2001-2002 (cohort two), 2002-2003 (cohort three), or 2003-2004 (cohort four) school year. They were required to write the OSSLT for the first time in February 2002 (cohort one) October 2002 (cohort two), October 2003 (cohort three), or October 2004 (cohort four). Students who were not successful in February 2002, October 2002, October 2003, or October 2004, or who were absent or deferred, became eligible to write the OSSLT again in March 2006. The results presented here are for previously eligible students.

The overall results for the TDSB and for the province are included. Results are provided for two reporting methods. “All eligible students” (Method 1) includes all students eligible to write (all students who entered Grade 9 in September 2000 and who are working toward an OSSD). Exempted students (those not working toward an OSSD) are excluded. “Fully Participating Students” (Method 2) includes only those students who wrote the test on both days, and who were assigned an achievement result (Successful, Not Successful). It excludes students who were exempted, deferred or absent. This is the method that was used for the provincial release.

The following statistics are provided:

<b><i>Number Eligible to Write</i></b>	the number of students eligible to write the test in that school
<b><i>Number Participating</i></b>	the number of students fully participating in the OSSLT (if they were present on both days of the administration)
<b><i>Successful</i></b>	the percentage of students who fully participated in the OSSLT, with results that met or exceeded the requirements
<b><i>Not Successful</i></b>	the percentage of students who fully participated in the OSSLT, with results that did not meet the requirements
<b><i>Absent</i></b>	the percentage of eligible students who were absent
<b><i>Deferred</i></b>	the percentage of eligible students who were deferred
<b><i>Taking OSSLC</i></b>	the percentage of eligible students fulfilling requirement through the Ontario Secondary School Literacy (OSSLC) course.

To protect against the disclosure of personal information associated with individual student results, a series of suppression rules are implemented for the public release of OSSLT results. Statistics have been suppressed where the number of respondents is so low that individual results could be determined from the aggregate value.
