

**NEW!!**

# Building the Team — Survey Questionnaire

Every EcoTeam has to start somewhere. At the beginning of the year, survey your EcoTeam members to find out what they are interested in and what skills they bring. This will help you to evaluate where your strengths lie...and perhaps reveal where you need to seek more talent!

At the end of the year, design another questionnaire to find out what worked well and what changes you might make for the following year.

Try using the questionnaire below to get started. (A whole sheet is on the next page to make photocopying easy!)

---

## QUESTIONNAIRE • EcoTeam/Environment Club Member

Name: \_\_\_\_\_ Grade: \_\_\_\_\_

I am interested in the following areas:

- |                                |                                  |
|--------------------------------|----------------------------------|
| waste minimization & recycling | gardening/school ground greening |
| energy conservation            | fundraising                      |
| communication                  | campaign management & events     |
| taking leadership              | renewable energy                 |
| other _____                    |                                  |

What environmental issue within our school/class concerns you the most?
