The TDSB has switched to single stream recycling to align with the practice of the City of Toronto. However, blue and grey recycling boxes will continue to be available for schools that choose to separate their recyclables.\* Recycling boxes are made with 25 percent post-consumer recycled content. The TDSB logo is printed on both sides, with the Mobius loop on one end and "We Recycle" on the other end.

**Lids for recycling boxes are available to help reduce contamination.**
