Used Appliances and Scrap Metal

Purchasing questions?

Contact Manuela Sequeira at manuela.sequeira@tdsb.on.ca or 416.395.8299.

Recycling questions?

Contact Mieke Foster at mieke.foster@tdsb.on.ca or 416.395.3055.

Two options are available for disposing of your old, broken, or energy-inefficient stoves, dishwashers, washers, dryers, refrigerators, and freezers.

1. Collection of used appliances upon delivery of new appliances

When purchasing a new appliance from Midnorthern Appliance (through the TDSB), you have the option to have old appliances removed. **For each refrigerator or freezer there is a fee of \$10.00.** All other appliances (except built-in dishwashers and microwaves) can be removed at no charge but you must choose this option when creating your Contract Release Order in SAP.

Note: Washing machines must be empty of water and clothing and gas ranges have to be disconnected in order to be removed.

Please note:

- ▶ Appliances such as dishwashers and microwaves that are built-in are not available for this option.
- ▶ Washing machines must be empty of water and clothing before removal.
- ▶ It is not necessary to remove appliance doors.
- ▶ Midnorthern Appliance will not collect microwaves. They can be managed through Artex Environmental Corporation, which also collects computers and other electronics, or through the City of Toronto (see next page).
- ▶ Collection costs are the responsibility of the school or department requesting the pick-up.

2. Collection of used appliances and scrap metal

- 1.** Prepare a list of how many and what sorts of items are ready for pick-up.
- 2.** Include any appliances or metal items illegally placed on school property.

Reuse of appliances

Highly efficient Energy Star-rated appliances in good working order can be offered for reuse through the Trading Post <http://zappsrv:8111/surplus/> or <http://tdsbweb/>Services>Trading Post>.

3. Contact Miller Waste at 905.513.2716 to schedule a pick-up. Place the items beside the bulk garbage bin for collection.
4. If you receive curbside garbage collection, you must call Toronto 311 to arrange a pick-up. Place appliance(s) at the curb by 7:00 a.m. on collection day or the night before. Your region's Task Force can be used to move appliances outside.
5. If you receive private garbage collection from Canadian Waste, contact your Family Team Leader to arrange a pick-up.

There is no cost for this service.

Please note:

- ▶ **IMPORTANT** All doors must be removed from appliances before they are set out.
- ▶ The City is responsible for removing freon from refrigerators.
- ▶ Metal items such as microwave ovens, air conditioners, dehumidifiers, storage sheds, bicycles, non-metal chairs (seats and backs removed) can be picked up with the appliances.
- ▶ Schools can arrange for a separate scrap metal pick-up, minimum 10 items, using the above process. Remove any non-metal components before placing the items at the curb.

3. Collection of clean scrap metal from auto shops, Design and Technology classes for recycling

1. For collection containers, contact Steve Sartell from Combined Metal Industries 416.743.7730 or ssartell@combinedmetal.com.
2. Have your caretaker or Family Team Leader contact CMI to arrange a pick-up.
3. Payment will be made if the quantity and quality of the scrap metal is sufficient.
