Access to Free Menstrual Products

Whereas, lack of access due to economic factors - often referred to as “period poverty” - impacts girls and women around the world and can be especially damaging at puberty, when school interactions are crucial to a girl’s development; and

Whereas, nearly one in seven Canadian girls have either left school early or missed school entirely because they did not have access to the feminine care products they needed to manage their periods; and

Whereas, menstrual hygiene products are not optional and are necessary and essential to women's and girls' health, comfort and participation in work, school and society; and

Whereas, other Ontario school boards, municipal, provincial, and federal governments have already taken steps to provide free menstrual hygiene products to students and staff; and

Whereas, the Board honours student voice and recognizes the many secondary students who have petitioned the Board of Trustees to ask for “free, quality period products in all schools” and further stated, “that this relatively small act would immensely improve the health and well-being of students all over the city who cannot afford the essential products they so desperately need while menstruating.”; and

Whereas, this matter also affects most students before they enter secondary school; and

Whereas, there are existing partnerships with organizations like the Physical and Health Education Canada (PHE Canada) and the Ontario Physical and Health Education Association to provide both educational materials and menstrual products at no charge;

Therefore, be it resolved:

- (a) That the Director be authorized to enter into a partnership with an appropriate organization to secure access to menstrual products and education materials at no cost to the Board;

Regular Meeting, June 19, 2019

- (b) That free menstrual products be provided in all elementary and secondary schools beginning in the 2019-20 school year.

Our Goals

Transform Student Learning

We will have high expectations for all students and provide positive, supportive learning environments. On a foundation of literacy and math, students will deal with issues such as environmental sustainability, poverty and social justice to develop compassion, empathy and problem solving skills. Students will develop an understanding of technology and the ability to build healthy relationships.

Create a Culture for Student and Staff Well-Being

We will build positive school cultures and workplaces where mental health and well-being is a priority for all staff and students. Teachers will be provided with professional learning opportunities and the tools necessary to effectively support students, schools and communities.

Provide Equity of Access to Learning Opportunities for All Students

We will ensure that all schools offer a wide range of programming that reflects the voices, choices, abilities, identities and experiences of students. We will continually review policies, procedures and practices to ensure that they promote equity, inclusion and human rights practices and enhance learning opportunities for all students.

Allocate Human and Financial Resources Strategically to Support Student Needs

We will allocate resources, renew schools, improve services and remove barriers and biases to support student achievement and accommodate the different needs of students, staff and the community.

Build Strong Relationships and Partnerships Within School Communities to Support Student Learning and Well-Being

We will strengthen relationships and continue to build partnerships among students, staff, families and communities that support student needs and improve learning and well-being. We will continue to create an environment where every voice is welcomed and has influence.
