GRADE RANGE: 9 to 12

Interesting Feature

Features

- Small classes and specialized program delivery with a remediation, literacy and school-to-work focus.
- Co-operative education and work experience programs available.
- Special Education programs with access to technical facilities and co-operative education.
- Six full computer labs, completely networked.
- Skill upgrading program in Grade Nine which prepares students for entry into applied/academic courses in a collegiate.
- Emphasis on technical training.

Central Etobicoke High School is committed to providing a high quality, unique, and alternative curriculum for students who wish to attain the skills, values and attitudes that will prepare them for work, lifelong learning and participation in community life. Courses are offered at the Essential, Workplace, Open, and K (non-credit) levels. Central students develop those skills that will serve them well, whether they join the work force, enter an apprenticeship program or go on to further education. Students who are designated M.I.D. or D.D. are recommended to the program through the IPRC process, and work towards a Certificate of Employability Skills. Students earning an OSSD do so with credits only at the essential level.

Student Life - Where You Belong

We have a great school spirit, where all staff and students feel a sense of belonging and work with tremendous energy and enthusiasm to create a very enjoyable environment. There are many whole school field trips and club activities organized as co-curricular events during the school day. There are several sports teams with the recent addition of girl's basket ball, boys soccer and basketball, and a keen interest and participation in lacrosse. Students are able to achieve in an environment that is safe, supportive and enjoyable.

What Sets Us Apart

Our school is organized by Houses where each student is assigned to a house from grade 9 until they graduate. We participate and have friendly competitions between houses or countries which coincide with major events such as, winter and summer Olympics, and world cup soccer. Students can also sign up for a club activity, such as, karaoke, chess, yoga, foosball/air hokey, movie, drama, anime, domino, hip hop, and many others. Club activity is scheduled every Friday just before lunch and students can rotate through them every month. Our winter whole school ski trip is eagerly awaited by many of our students, a highlight being, the opportunity for developmentally delayed and physically disabled students to ski or snow tube for the first time. Our students and staff work, learn, and play in a supportive environment which enriches the experiences for all.

Parent and Community Engagement

- Parent Council Co-chairs: Stephanie Grattan and Anna Hortiguela. The structure of our Collaborative Community and School Programming Committee has enhanced the functioning of the School Council. It has allowed for increased and dynamic participation by the wider community involving parents, agencies, social workers, school and Board staff, and students. This creates supports for students and parents by connecting with community agencies, and enhances opportunities for experiential learning, and the transition to the workplace and post secondary education.

TDSB - Better Schools. Brighter Futures

Imagine a TDSB where all schools share a common core set of characteristics. They are community-driven and focused on teaching and learning. Students and parents have a wide variety of opportunities and there are enough students in every school to increase program choices.

Imagine there is a clear focus on achieving student success and every student is engaged, has a voice, access to a caring adult and the opportunity to develop their full potential.

Here at the TDSB our focus is on student achievement, parent and community engagement and financial stability.
