NOTE: Students in French Immersion programs are designated a pathway through middle/secondary based on home address at the time of entry. Given changes to the Out-of-Area Admissions procedure, students in French Immersion/Extended French programs at a school other than their French program school based on their address, must return to their designated French pathway school by address for middle/secondary school. If students wish to attend a middle/secondary French Immersion/Extended French program that is not associated with their address, they must apply to that school via the [Out-of-Area Admissions](#) process within the timeframes provided at each transition point.
