

Elizabeth Simcoe JPS Project Update

May 22, 2026

COMMUNITY UPDATE:

TDSB Capital Services is pleased to provide the school community with the following update on the status of the addition and renovation construction project.

Corebuild Construction Ltd. has been awarded the contract for the construction of the new addition and renovations at Elizabeth Simcoe JPS. Corebuild will begin mobilization on site as of June 1, 2026, and will occupy the entire east side of the school until January 2028.

Access to the school's entire east parking lot and east walking path will be restricted for the duration of construction. Please take note of construction fencing and signage.

TDSB and Corebuild are committed to the safety of students, staff and the public. The site will be cordoned off with fencing and hoarding to prevent access into areas where construction activities are taking place. Deliveries of construction material will be coordinated with the school schedule to avoid drop off and pick up windows, and construction work in the existing building will be carried out after hours and during the summer to minimize disruption to school activities. Safety plans will be implemented and monitored to ensure minimal impact to school operations while students and staff are attending school.

For more information, or questions or concerns relating to the construction, please contact the Project Supervisor, Alex Tilley at Alex.Tilley@tdsb.on.ca. Any inquiries regarding limitations to access, drop-off or pick-up may be directed to the school principal, Ruth Coulter at Ruth.Coulter@tdsb.on.ca.
