

York Memorial CI Project Update

June 26, 2026

COMMUNITY UPDATE:

The York Memorial CI project team would like to provide the school community with the following update on progress of the remediation and reconstruction project currently underway at the original York Memorial CI.

As we enter Summer 2026, the project focus is on site work and interior finishes. Roofing work has been substantially completed, new windows and glazing have been installed throughout and exterior façade construction is complete except for the north reconstructed auditorium wall. Utility services and landscaping have commenced around the site. Interior works have shifted from mechanical and electrical routing to installing final rough-ins, wiring up new equipment, installing drywall, painting, and the coordinated work of installing building finishes, including new plaster and heritage elements.

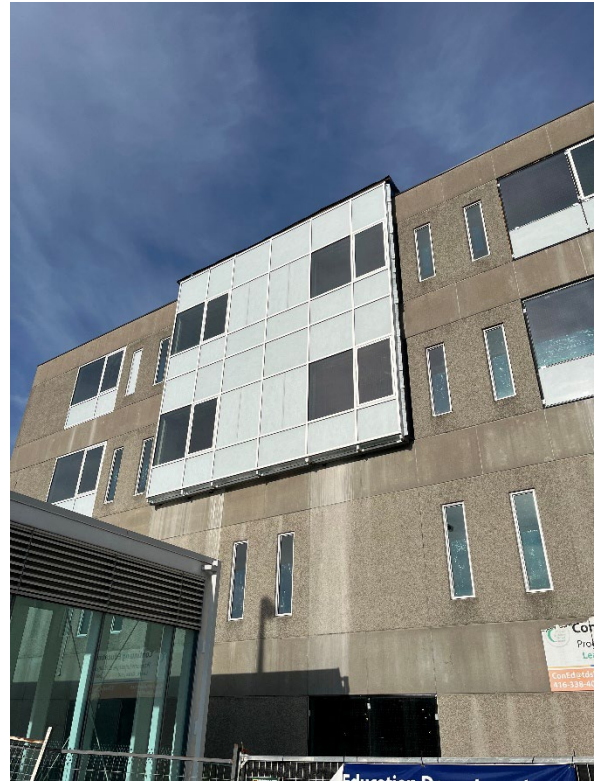

The overall project continues to progress well. It is anticipated that the school will be ready for occupancy during the 2026/27 school year.

Please see pictures & descriptions of current works on the next page.
