

# York Memorial CI Project Update

September 4, 2026

## COMMUNITY UPDATE:

The York Memorial CI project team would like to provide the school community with the following update on progress of the remediation and reconstruction project currently underway at the original York Memorial CI.

As we enter the 2026/2027 school year, the project focus is on exterior landscaping and new equipment start-up. Full environmental remediation has been completed, and all remaining work is related to the final reconstruction. The interior courtyards have been rebuilt with new windows, all scaffolding has been dismantled, interior finish works are proceeding, and the project is entering the critical phase of preparing new equipment for initial start ups and testing. Building finishes, such as corridor plaster, terrazzo floors, ceramic tiles, drywall, and paint are proceeding across all zones in preparation for final millwork and finish treatments.

The overall project continues to progress well and remains on track. It is anticipated that the school will be ready for occupancy during the 2026/27 school year.

**Please see pictures & descriptions of current works on the next page.**
