

Hodgson Middle School Project Update

August 28, 2026

COMMUNITY UPDATE:

The Hodgson project team would like to provide the school community with the following update on progress of the addition & renovation project currently underway at Hodgson Middle School.

Hodgson Middle School students will return to the newly renovated and expanded school for the 2026-27 school year. The City of Toronto has completed final inspections and closed the building permits for the project. The school may now be occupied and is ready for use by the students, staff and community.

On behalf of Facility Services, we would like to thank the school community for their support and patience throughout the construction process. We look forward to seeing the new and improved Hodgson Middle School utilized to its full potential and remaining a pillar of the community for another 100+ years.

The project team also extends our thanks to the general contractor, consultants, sub-contractors and City of Toronto staff whose hard work, collaboration and dedication to the project made it possible to open the school on schedule.

PROGRESS OF CONSTRUCTION WORK

1. All major and life safety works have been completed and the school is ready for use.
2. Newly sodded areas, including the play field, will be fenced off from foot traffic until November to protect the sod while it is rooting.

UPCOMING WORK

1. Final cleaning and furniture set up will continue into the first week of September.
2. Minor exterior and finishing work may continue past the start of the school year. Access to these areas will be coordinated with the principal.
3. Deficiency remediation will continue after the start of the school year, and will be scheduled in coordination with the principal.
