Summer 2020 International Tech Program Explore Coding and STEM

Join the largest public school board in Canada this summer on a learning journey from your home. The Summer 2020 International Tech Program is an interactive and engaging online program focusing on coding and STEM. This summer students from all over the world will work together to improve English, develop analytical reasoning and problem-solve through the process of inquiry and exploration based learning. All classes will be taught and facilitated by Ontario certified TDSB teachers.

Program Highlights:

- Program designed to develop problem solving, critical thinking, innovation and creativity
- Flexible start dates and schedule
- Engaging and interactive lessons delivered by Ontario certified TDSB teachers

Bring Canadian education to your home this summer!
