Maxay Cilmi-baadhistu sheegtay?

"Ardayda FI waxay ku gaadhaan aqoon sare oo Faransiis ah iyo sidoo kale inay si fiican u yaqaanaan nuxurka dugsiga (Sayniska, Cilmiga Bulshada, Xisaabta iwm) oo u dhiganta ardayda la midka ah ee wax ku baranaysa Ingiriisida."

(Wesche, 2002)

Daraasado laga sameeyay qaybo kala duwan oo Kanada ahi ma helin wax saameyn xun ah oo ku yimid EFI ama MFI ardayda dugsiga dhexe oo ku saabsan xisaabta, sayniska iyo cilmiga bulshada marka lagu imtixaamo Ingiriisiga.

(Wesche, 2002)

Inkasta oo laga yaabo in luqadda koowaad ee ilmahu aanay ahayn luqad bulsho, carruurta waxay si guul leh u baran karaan luqad dheeraad ah, sida Faransiis, halka isku mar loo baranayo luqadda Ingiriisiga luqad labaad ahaan.

(O'Brien, 2017)
