Dear Student (grade 7 to 12) and Parent/Guardian:

Re: Visit a Toronto Public Health clinic to get vaccines missed during the pandemic**Toronto Public Health vaccine clinics**

Toronto Public Health (TPH) is holding vaccine clinics throughout the summer to give students completing grades 7 to 12 these important lifesaving vaccines:

- Meningococcal vaccine (prevents meningitis)
- Human Papillomavirus vaccine (prevents cancers)
- Hepatitis B vaccine (prevents liver disease and cancer).

During the COVID-19 pandemic, many students did not get these vaccines. They are free, safe and recommended before leaving high school.

Get vaccinated at a Toronto Public Health clinic

These vaccines are free for students completing grades 7 to 12 at [TPH Vaccine Clinics](#). OHIP is not required. Walk-in or make an appointment [online](#). New clinics are added each week and are also available on evenings and weekends.

Unsure if you got these vaccines?

Check your yellow immunization card or your [online TPH vaccine record](#). Vaccine records can also be checked at a Toronto Public Health clinic.

School requirements

In Ontario, the *Immunization of School Pupils Act* requires all students to be up-to-date with their Meningococcal vaccine or have a [valid exemption](#). Hepatitis B and Human Papillomavirus vaccines are strongly recommended.

More information

Find out more on our website about these [vaccines](#), [TPH clinics](#) and the [school-based vaccination program](#). If you have any questions, please speak to your health care provider or call Toronto Public Health at 416-338-7600 (option '1'), Monday-Friday 8:30 AM – 4:30 PM. Language interpretation is available.

Sincerely,

Nicole Welch
Director Child and Youth Response and Chief Nursing Officer
