

Long-Term Program and Accommodation Strategy (LTPAS)

What is our goal?

To reflect our commitment to human rights, equity, accessibility and inclusion in the accommodation drivers of the Long-Term Program and Accommodation Strategy (LTPAS).

How will we achieve it?

- Engage in a consultation process with internal stakeholders, Advisory Committees, Student Senate, Trustees and the public to develop revised drivers (Fall 2018 to Winter 2019)
- Obtain approval for the revised drivers (June 2019)
- Incorporate the revised drivers into the annual LTPAS process (2019-2020) impacting the strategy developed for 2020-2029

How will we know we are successful?

- Increased engagement of students, staff, parents, and communities as their voice, experience, identity, and expertise are reflected in decision making.
- All secondary schools and programs will provide multiple pathways and many course options.
- There will be an increase of underserved students in all specialized programs.
- Progress will be reflected in Student Achievement Data, Student Census Data, School Climate data, staff surveys and staff focus groups.
