

ONTARIO SECONDARY SCHOOL LITERACY TEST RESULTS: SCHOOLS IN THE TORONTO DISTRICT SCHOOL BOARD First-time Eligible Students 2018-2019

The attached list presents the results for each school in the Toronto District School Board for the Ontario Secondary School Literacy Test (OSSLT) administered in 2018-19. Students who took the test were in Grade 10 (first-time eligible students) or in Grade 11/12 (previously eligible students). “First-time eligible students are working toward an Ontario Secondary School Diploma (OSSD). These students are expected to write the Ontario Secondary School Literacy Test (OSSLT) for the first time in the spring of their second year of secondary school; this also applies to students who entered Grade 10 from out of province” (EQAO School Board Report , Explanation of Terms, 2018-19, p.27)*. The results presented here are for first-time eligible students.

The overall results for the TDSB and for the province are included. Results are provided for two reporting methods. All eligible students are “all students in the cohort who are working toward an OSSD. The only students excluded are those who are not working toward an OSSD (exempt students)” (EQAO School Board Report , Explanation of Terms, 2018-19, p.27)*. Fully participating students includes “students for whom there is work for both sessions of the administration of the OSSLT and who were assigned an achievement result (successful, not successful). Students who are not working toward an OSSD, those who were absent and those who were deferred are excluded” (EQAO School Board Report , Explanation of Terms, 2018-19, p.27)*.

The following statistics are provided:

Number Eligible to Write	the number of students eligible to write the test in that school
Number Participating	the number of students fully participating in the OSSLT (if they were present for both sessions of the administration)
Successful	the percentage of students who fully participated in the OSSLT, with results that met or exceeded the requirements
Not Successful	the percentage of students who fully participated in the OSSLT, with results that did not meet the requirements
Absent	the percentage of eligible students who were absent
Deferred	the percentage of eligible students who were deferred

To protect against the disclosure of personal information associated with individual student results, a series of suppression rules are implemented for the public release of OSSLT results. Statistics have been suppressed where the number of respondents is so low that individual results could be determined from the aggregate value.

¹ N/R: “Not reported” indicates that the number of participating students in a school is so small that identification of individual student results might be possible; therefore, results are not reported.

² N/D: “No data available” is used to indicate that there were no students for the year specified.
