

ONTARIO SECONDARY SCHOOL LITERACY TEST RESULTS: SCHOOLS IN THE TORONTO DISTRICT SCHOOL BOARD Previously Eligible Students 2017-2018

The attached list presents the results for each school in the Toronto District School Board for the Ontario Secondary School Literacy Test (OSSLT) administered in 2017-18. “Previously eligible Students includes all students who were absent or deferred, or were unsuccessful during one or more previous administrations; were previously exempted but are now working toward an OSSD; entered Grade 11 or 12 from out of province or enrolled in an adult education program and began Grade 9 in or after the 2000–2001 school year” (EQAO School Board Report , Explanation of Terms, 2017-18, p.27)*. The results presented here are for previously eligible students.

The overall results for the TDSB and for the province are included. Results are provided for two reporting methods. All eligible students are “all students in the cohort who are working toward an OSSD. The only students excluded are those who are not working toward an OSSD (exempt students)” (EQAO School Board Report , Explanation of Terms, 2017-18, p.27)*. Fully participating students includes “students for whom there is work for both sessions of the administration of the OSSLT and who were assigned an achievement result (successful, not successful). Students who are not working toward an OSSD, those who were absent and those who were deferred are excluded” (EQAO School Board Report , Explanation of Terms, 2017-18, p.27)*.

The following statistics are provided:

Number Previously Eligible	the number of students eligible to write the test in that school
Number Participating	the number of students fully participating in the OSSLT (if they were present for both sessions of the administration)
Successful	the percentage of students who fully participated in the OSSLT, with results that met or exceeded the requirements
Not Successful	the percentage of students who fully participated in the OSSLT, with results that did not meet the requirements
Absent	the percentage of eligible students who were absent
Deferred	the percentage of eligible students who were deferred

To protect against the disclosure of personal information associated with individual student results, a series of suppression rules are implemented for the public release of OSSLT results. Statistics have been suppressed where the number of respondents is so low that individual results could be determined from the aggregate value.

¹ N/R: “Not reported” indicates that the number of participating students in a school is so small that identification of individual student results might be possible; therefore, results are not reported.

² N/D: “No data available” is used to indicate that there were no students for the year specified.
