### BOARD HIGHLIGHTS

#### TDSB Welcomes Integrity Commissioner

TDSB Integrity Commissioner Suzanne Craig began her appointment on April 4, 2016. Serving the Board of Trustees, the Integrity Commissioner will provide advice, and conduct inquiries and complaint resolution in an independent manner. The TDSB is the first school board in Ontario to appoint an Integrity Commissioner.

#### TDSB 2016-17 Operating Budget

On March 24, The Ministry of Education announced the 2016-17 Grants for Student Needs. We're projecting a negative financial position at \$15.8 M. In order to mitigate the deficit, staff have proposed a number of central department reductions. Trustees will vote on the TDSB's Proposed Plan at the Board meeting on May 25, 2016. #### Learning Centres to Support Schools and Communities

The TDSB will be creating four new Learning Centres that will improve the Board's responsiveness to schools, teachers and parents. Our vision is that Canada's largest school system can act and feel local when our schools are well-supported and highly responsive and when our parents and communities are more connected.

The emerging plan calls for four Learning Centres with approximately seven Superintendents in each centre, led by an Executive Superintendent. This will allow 32 members of senior team to work directly with schools. Please note, Learning Centres are not necessarily a geographic building. Each Centre will have access to coaches that will support effective instruction in classroom. Coaches with different specialties will also assist with areas such as the arts or digital literacy. In order to ensure the key commitment for every student to be able to read at grade level by the end of Grade 1, 20 early reading coaches will work directly with students and teachers. In addition, the plan is to assign a minimum of 60 learning coaches (Kindergarten to Grade 12) to work alongside teachers to improve learning and achievement as well as a dedicated team of 8-10 co-curricular lead teachers who will support system-wide activities and events such as co-curricular Arts, Athletics, etc.

Each Superintendent in the learning centre will also have a co-ordinating function to ensure coherence across the entire system while some Executive Superintendents will continue to work at the Board level so that the work of our Learning Centres is coordinated and coherent.

## **FIX OUR SCHOOLS**

You would have read or heard about the TDSB raising awareness of the need for capital funding to help address the condition of our school facilities. Even with the additional renewal funds provided by the Ministry last year, our maintenance backlog still sits at \$3.3 billion and continues to rise. The TDSB continues to argue for a change to the Education Development Charges (EDCs) legislation to allow all school boards access to EDC revenue for school capital. Current legislation mandates that EDCs can only be used for the purchase of land to support schools in growth areas. This needs to change to include repairs and renovations to schools throughout Toronto, especially in high residential growth areas.

If you want to help us advocate, please consider joining Fix Our Schools, a parent-led advocacy group: [www.fixourschools.ca](http://www.fixourschools.ca).
