### EXPLANATION OF TERMS

- All Students:** Results are reported for all students in the course (EQAO School Board Report, 2017-18).
- LOI:** The latest Learning Opportunities Index (LOI) is from 2017. The LOI ranks each school based on measures of external challenges affecting student success. The school with the greatest level of external challenges is ranked number one and is described as highest on the index. The 2017 LOI rank for secondary schools is out of 108. Junior High Schools are ranked among the 471 elementary schools.
- RMS1:** Renewed Math Strategy (Intensive), 2017-18.
- RMS2:** Renewed Math Strategy (Increased), 2017-18.
- N/D:** "No data available" is used to indicate that there were no students in the grade or subject for the group or year specified (EQAO School Board Report, 2017-18).
- N/R:** "Not reported" indicates that the number of students participating is so small that identification of individual student results might be possible; therefore, results are not reported (EQAO Public Report, 2017-18).

### EXPLANATION OF TERMS

**Fully Participating Students:** Based on students who participated in both sessions of the OSSLT administration (excludes those who were absent, deferred and exempted)(EQAO School Board Report, 2017-18).

**LOI:** The latest Learning Opportunities Index (LOI) is from 2017. The LOI ranks each school based on measures of external challenges affecting student success. The school with the greatest level of external challenges is ranked number one and is described as highest on the index. The 2017 LOI rank for secondary schools is out of 108. Junior High Schools are ranked among the 471 elementary schools.

**RMS1:** Renewed Math Strategy (Intensive), 2017-18.

**RMS2:** Renewed Math Strategy (Increased), 2017-18.

**N/D:** "No data available" is used to indicate that there were no students in the grade or subject for the group or year specified (EQAO School Board Report, 2017-18).

**N/R:** "Not reported" indicates that the number of students participating is so small that identification of individual student results might be possible; therefore, results are not reported (EQAO Public Report, 2017-18).
