Dear Students/Parents/Guardians/Staff/Community Members of Cedarvale Community School:

Re: School Facility Improvements

As you may know, the Toronto District School board approved a Five-Year Capital Building Program that included funding for facility upgrades for the schools that would require program and/or capacity changes as a result of the 2009/2010 Accommodation Review process. These improvements will implement the Accommodation Review Committee's (ARC) final recommendations that were accepted by your Local School Construction Design Team. Let us again take this opportunity to publicly thank members of the Team who provided us with their best advice on your behalf, to ensure our preliminary design concepts supported your school needs.

We are pleased to announce that construction for Cedarvale CS – ARC 4 - Interior Renovations Phase 1 is complete. This letter is to inform you that the construction for Cedarvale CS – ARC 4 - Phase 2 has been awarded to a contractor. This work consists of a new one storey addition that will contain 3 new classrooms and a collaborative space, expansion of the gym and renovation to one existing classroom. This addition and all renovations will be completed for the start of the 2012 school year.

We have Board approval for Phase 2 and we are anticipating the last level of Ministry approval shortly. We foresee construction start up by the end of this year or early next year. Please note access to the construction area will be hoarded and isolated from the school. We have worked with your school's Principal Carmello Nanfara to ensure work will be coordinated to minimize the impact of construction on school operations. All contractors are aware of the need to schedule any disruptive work including dust and noise after school hours as much as possible.

Residents will be able to contact the TDSB immediately if any concerns arise during construction. If you have any questions, please do not hesitate to contact Farhad Nassiri, TDSB Project Supervisor at (416) 395-4223.

We look forward to building the improvements to Cedarvale CS that will enhance our students' learning experience and thank you in advance for your support and your patience during this period of change.  
Season's Greetings!

Sincerely,
