Dear Students/Parents/Guardians/Staff/Community Members of Brown Public School:

Re: School Facility Upgrades

As you many know, Toronto District School Board is planning to implement Phase Four of the Full Day Kindergarten Program as mandated by the Ministry of Education. Brown Public School will require facility upgrades to accommodate the program. The facility upgrades will be funded by the Ministry of Education.

This letter is to inform you that construction for **Brown PS – FDK4 Addition** has been awarded to a contractor. This work consists of a two storey kindergarten and music classroom addition with internal renovations. The addition and renovations will be completed for the start of the 2013 school year.

The Board and Ministry have approved the project. We foresee construction to begin this month. For work starting before the school year end, access to the construction area will be hoarded and isolated from the school. We have worked with your school's Principal Gina Christakis to ensure work will be coordinated to minimize the impact of construction on school operations and keep students safe. All contractors are aware of the need to schedule any disruptive work including dust and noise after school hours where possible. During construction, parking on-site will be limited.

Residents will be able to contact the TDSB immediately if any concerns arise during construction. If you have any questions, please do not hesitate to contact Salvatore Beltrano, TDSB Project Supervisor at (416) 395-4187.

We look forward to building the improvements to Brown PS that will enhance our students' learning experience.

Thank you for your support and your patience during this period of change.

Sincerely,
