Pupil Accommodation Reviews

The Board's Long-Term Program and Accommodation Strategy must examine areas of the City where declining enrolment has resulted in the underutilization of schools. A Pupil Accommodation Review involves studying a school or group of schools where significant underutilization and low enrolment impact the Board's ability to deliver strong programming. A Pupil Accommodation Review, or 'PARC', will consider ways to reduce surplus space and build viable programs. The review may result in school closure.

In 2017, the Ministry of Education imposed a moratorium on school closures that is still in effect. Potential Pupil Accommodation Reviews have been included for implementation sometime in the future when the moratorium has been lifted. The year for the reviews has not been specified except for the first review listed below.

TDSB staff is requesting Ministry approval to commence a Pupil Accommodation Review of York Memorial CI and George Harvey CI based on the urgent situation resulting from the fire at York Memorial CI.

Given the Secondary Program Review that is currently in progress, no other Pupil Accommodation Reviews involving secondary schools have been included.

Capital Priority Projects

As part of the Long-Term Program and Accommodation Strategy, the Board must consider new capital investment to create much needed additional capacity in areas of the City experiencing enrolment growth and to support the outcome(s) of Pupil Accommodation Reviews where schools may be closed. Capital investment to provide new and efficient learning environments is an integral part of this strategy. Business cases that outline the need for school additions, school replacements or deep retrofits will be prepared and submitted to the Ministry of Education for capital funding consideration. Capital Priority projects are ranked

Boundary Change Studies

Local neighbourhood schools have attendance areas defined by boundaries that are used to determine admission to the Regular Program. Boundaries between two schools can be changed to reduce overcrowding, utilize surplus space, or designate addresses to a closer school. Development Redirection Studies

Redirecting a residential development is a tool for controlling overcrowding at schools. A redirection is considered when a large residential development is proposed to be constructed in an area that is served by an overcrowded school. The large residential development is assigned to a school outside of the area that has space available. The redirection occurs before the residential development is occupied. Usually bussing is required to transport the students living in the new development to the designated receiving school.

List of Development Redirection Studies

Year	Ward(s)	Description of the Study
Underway	17	Explore the redirection of proposed residential development within a currently unassigned industrial/commercial area to adjacent elementary schools. This unassigned area is centered along Eglinton Avenue East and includes significant future development within the Golden Mile Secondary Plan area. This review will consider the need for a future elementary school site within the Golden Mile Secondary Plan.
Underway	20	Explore a review of new residential development within the Tam O'Shanter Jr. PS attendance area to address existing and projected overutilization. This review will include the proposal to redevelop the Agincourt Mall as well as consider how nearby underutilized schools may be able to address the accommodation pressures at Tam O'Shanter Jr. PS. Enrolment in this area will be closely monitored to determine whether or not ongoing study is required.
Underway	8, 10, 11	Explore the redirection of new residential development proposed within the Eglinton Jr. PS catchment area to Whitney Jr. PS and to Rippleton PS. Note that given the density proposed within the Eglinton Jr. PS area, other schools may have to be explored as redirection sites through ongoing study.

2025-26	7	Explore the redirection of new residential development proposed within the catchment area of Runnymede Jr. & Sr. PS.

Child Care Occupancy Reviews

A Child Care Occupancy Review Committee (CCORC) is struck when an overutilized school has explored alternatives for accommodating students and an examination of external partners operating within the building needs to be undertaken. A CCORC may result in the reclamation of some or all of the space used exclusively by a child care centre. TDSB staff will work with the child care operator in an attempt to find a suitable space nearby in the event that all of the child care space is to be reclaimed by the school for instructional use.

At this time there are no planned Child Care Occupancy Reviews.

Program Priorities

The Program Priorities identified in the Annual Planning Document (For more details see Section 5) reflect those identified in the Long-Term Program and Accommodation Strategy document.

List of Program Priority Studies

Year	Ward(s)	Description of the Study
Underway	All	In light of the increasing enrolment in French programs combined with the concerns from many stakeholders about transportation, entry points, location of programs, staffing and equity, a review of all French programs was conducted. This review was conducted in 2018 and reached a milestone in June 2019 when Trustees approved a number of transformative changes to entry points and program models. During the 2019-20 school year, staff will continue to support the work associated with the implementation of these changes, specifically working toward a redistribution plan for French programs to improve equity of access.
Underway	All	Continue with the Secondary Program Review to develop a vision of secondary schools and programs aligned with the Long-Term Program and Accommodation Strategy that will benefit all students across the TDSB. Staff will continue to work strategically at a system level to examine the distribution and viability of secondary schools and programs. This work will include a review of related policies, procedures and practices.

A non-operating school site is a property owned by the TDSB that is not currently used as an operating school. The property could be vacant land, an administration building, or a closed school that is leased out to a tenant. Many of these properties are considered core holding. They are properties that the TDSB wishes to keep ownership of because they are currently used by the TDSB, or they are encumbered by conditions that prevent them from being sold, or they are required for possible use by the TDSB in the future.

Sometimes, as a result of changes in demographics or school board operations, it may be determined that a site is no longer required for future use and can be declared surplus to the needs of the Board and sold. Proceeds of sales would be applied to the TDSB's Capital Renewal Backlog.
